ROBERT LAND
ACADEMY
ROBERT LAN

HEADMASTER'S ADDRESS

Each year is unique in its own way, bringing with it a new set of challenges, attitudes, associations and transition - a sign of the times.

Through working together, each and every one of us play an important role in the lives of our Cadet body in the hopes that they, in turn, will strive to meet the future with LOYALTY, LABOUR, COURAGE, COMMITMENT, AND HONOUR. These values do make a difference for those of our future generation.

With all sincerity, I would like to thank Cadets and their families, Board members, faculty and friends for all of your efforts and support this past year. Through your dedication, each of you in your own way have contributed to the success of Robert Land Academy and its dedication to a future of promise.

For those Cadets who are returning, we look forward to another exciting and fulfilling academic year. To those of you who are graduating, I wish all the very best and continued success in your endeavours.

G. Scott Bowman, B.A., KH (Maj)
Headmaster

HEADBOY'S ADDRESS

We have successfully completed another year of tradition, values, and pride at Robert Land Academy.

This year has been a year of learning, not only in the classroom, but out as well. Robert Land is a unique school in that it faces the boys with a challenge to succeed; teaching them to be responsible and respectable. The Academy has five very strong values that the boys use as guidelines: Honour, Labour, Loyalty, Courage and Commitment. These are not just words and the boys know that. They have meaning which must be exercised and taken to heart. Robert Land is a school that is second to none, from the Company Sergeant Major's to the teaching staff, they care about every student's needs. Robert Land has taught me many things that I will never forget. I thank my parents for their support in my decision.

To all those boys who are returning next year, good luck and carry on the tradition. To those boys who are moving on to other things, remember what you were taught, and use it.

Sergeant Brad Ellis
Headboy 1990-1991

A DAY IN THE LIFE . . .

6:00am An hour of the day at which not too many arise. However, at Robert Land Academy, things are different. Much different.

The next hour will be very busy for the hundred-odd cadets that attend Robert Land, as they prepare for the morning's inspection. A quick trip to the washroom allows the boys to brush their teeth, shave, and wash up, necessities that are thoroughly checked at each morning's inspection. The boys then return to their bedspaces, where their beds must be made to certain dimensions in order to pass the inspection standard.

6:30am Housejob time. Each cadet is given a specific duty or "house job" as they are better known, for which he is responsible for. The task must be done and done well, as to survive a thorough "checking over" at inspection time.

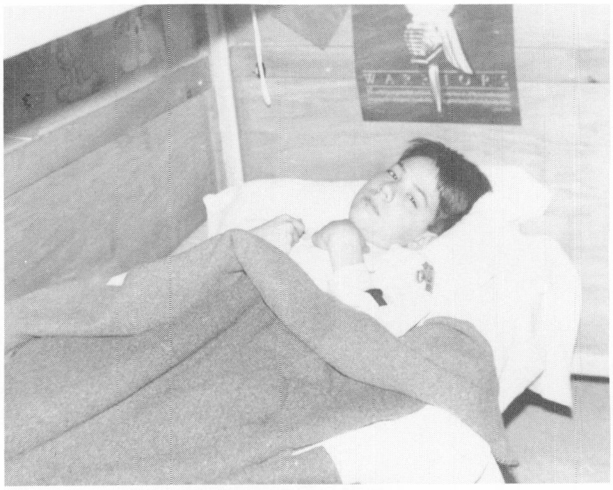
7:00am The inspecting officer has just entered the house. The cadets are called to attention, and the inspection proceeds.

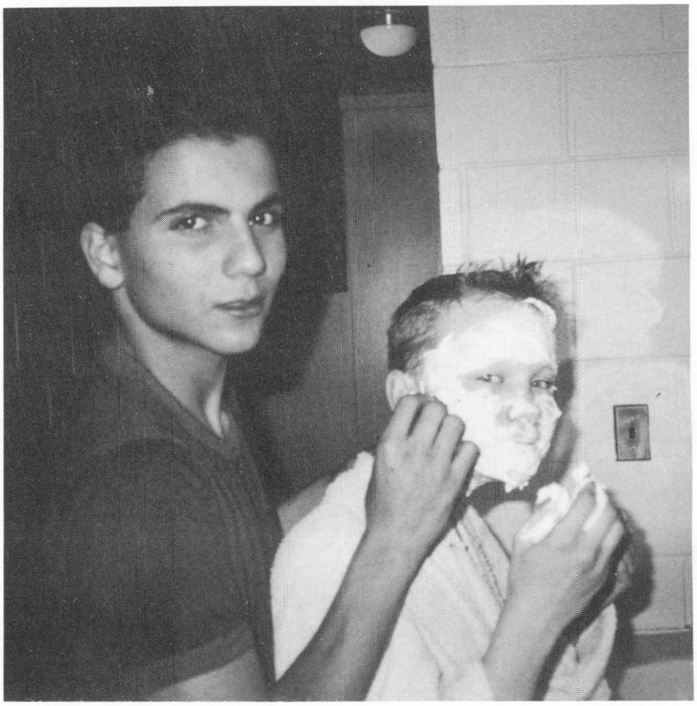
7:45am The inspection has been completed. It is now time for breakfast. Meals are eaten in the Mess Hall, a large dining room that houses all the cadets and the masters as well.

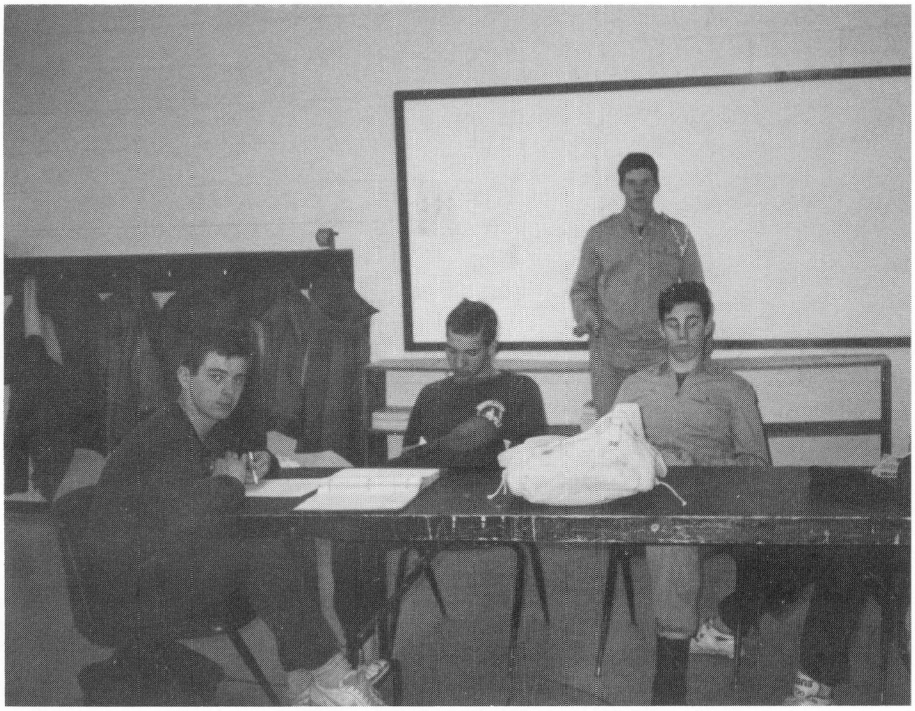
8:30am Breakfast is over and it is time for drill. All of the boys are now formed up in their platoons on the parade square, ready for a good twenty minutes of drill instruction from our Academy Sergeant Major.

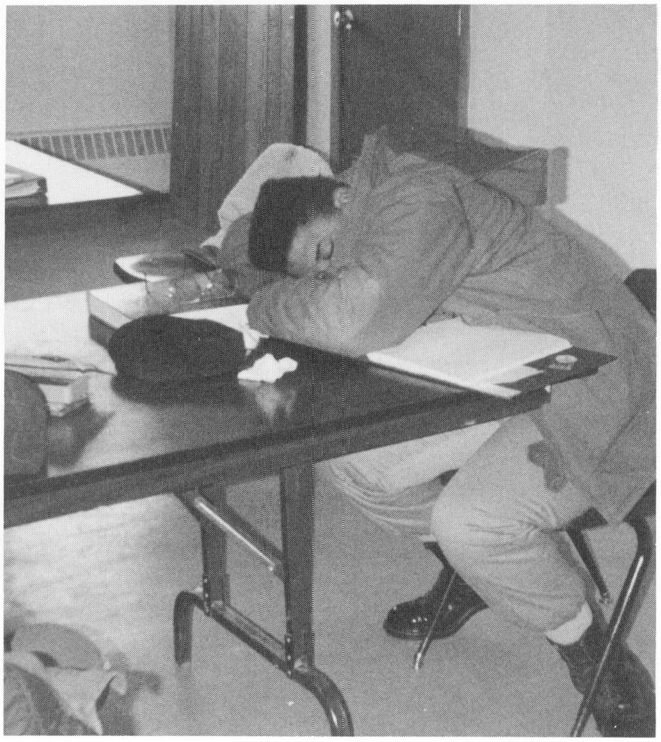
9:00am Morning classes have begun. For the next three hours, the cadets of Robert Land will be enlightened with great knowledge as they ask themselves "When am I ever going to use this in life . . .?!"

12:10pm Once again, it's time to eat. An anxious group of boys proceed back to the Mess Hall to once again stuff their faces full of the gourmet "eats" prepared by our wonderful kitchen staff.









1:00pm Time for more educational enlightment. The boys can sit back and enjoy the next three hours, as their young minds are filled with the many thoughts and processes of getting an education.

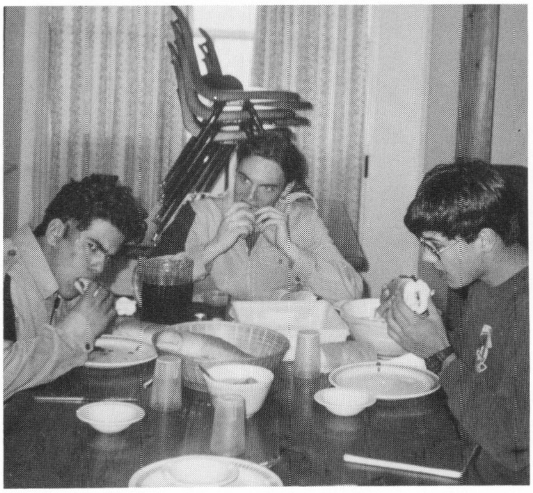
4:10pm Activity Period. Time for the boys to blow off a days worth of steam. Soccer, football or tag team, physical training, it's an hour of fun, energetic activity.

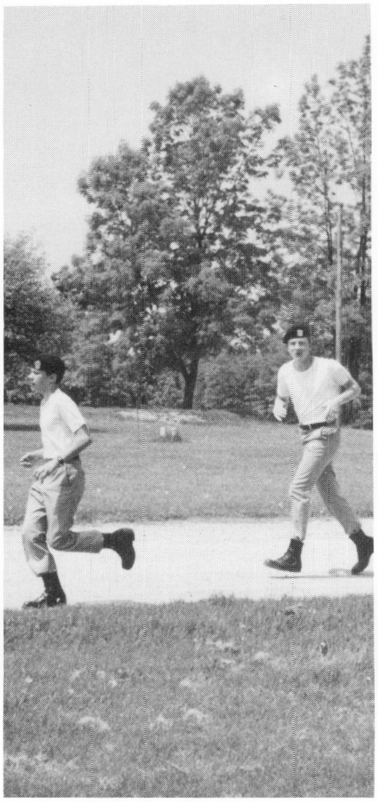
5:30pm After an hour of brutal circuit training, (HA HA HA) it is once again time to eat. After a busy day, the boys are ready for a good meal. Yum-o-yum! It looks like we're having chicken . . . again!

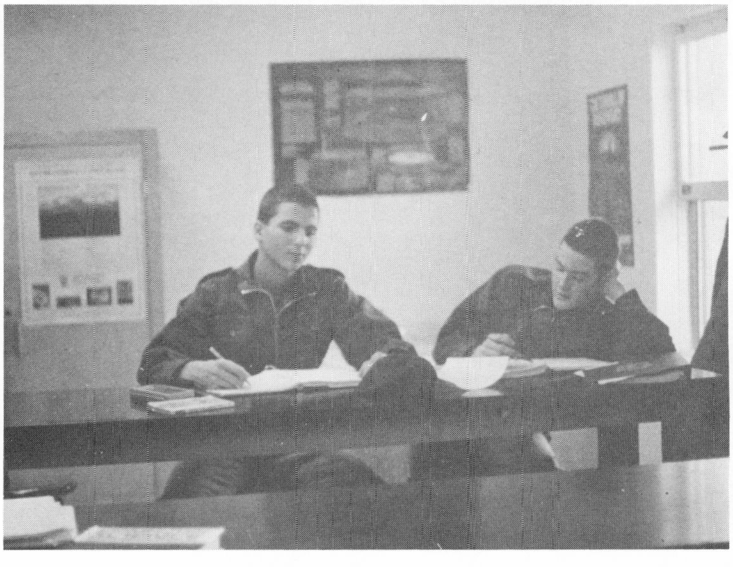
6:30pm Study Hall. Better known as "solitary confinement" by some of the boys. Well, be that as it may, it is two hours in which you must do homework. No if's and or but's about it. From the hours of 6:30pm to 8:30pm, that's all that happens. By the way, it is quite humorous to see the "I actually did my homework" look on most of the boys faces as they exit the study hall rooms. Actually, it's most enjoyable.

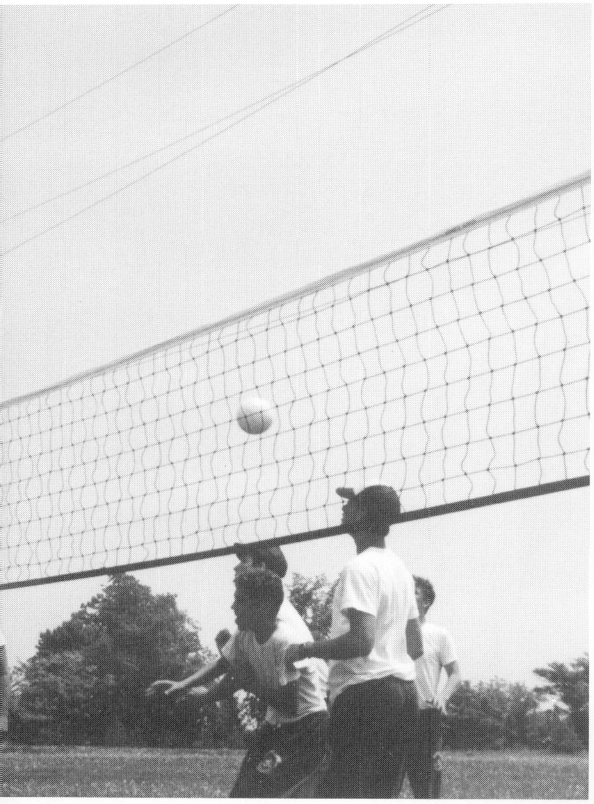
8:30pm Kit Time. What is "kit" you may ask? Well ask anyone from Robert Land and they'll be sure to tell you. You see, at R.L.A., kit is your friend. Your shirts are your kit, your underwear is your kit, your toothbrush is your kit - "kit" is everything you own. Kit is inspected every morning. Kit is worn everyday. And last but not least, kit is what you work on from 8:30-9:30pm! Folding, polishing, pressing - Oh it's just loads of fun!

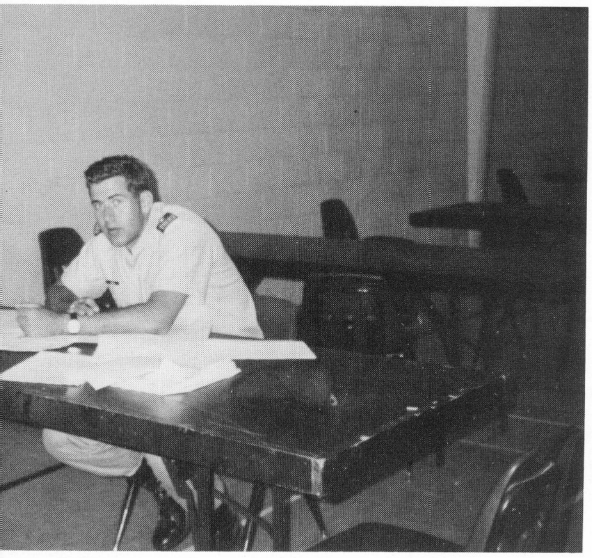
9:30pm Wow, what a day! It is now time for bed. And after a day at Robert Land, you'll be ready for it. As you drift off to sleep, thoughts of what you have accomplished today dancing in your head, you think of what tomorrow may bring. Reward, achievement, and success, things you will remember for a lifetime, things that happen at Robert Land Academy.

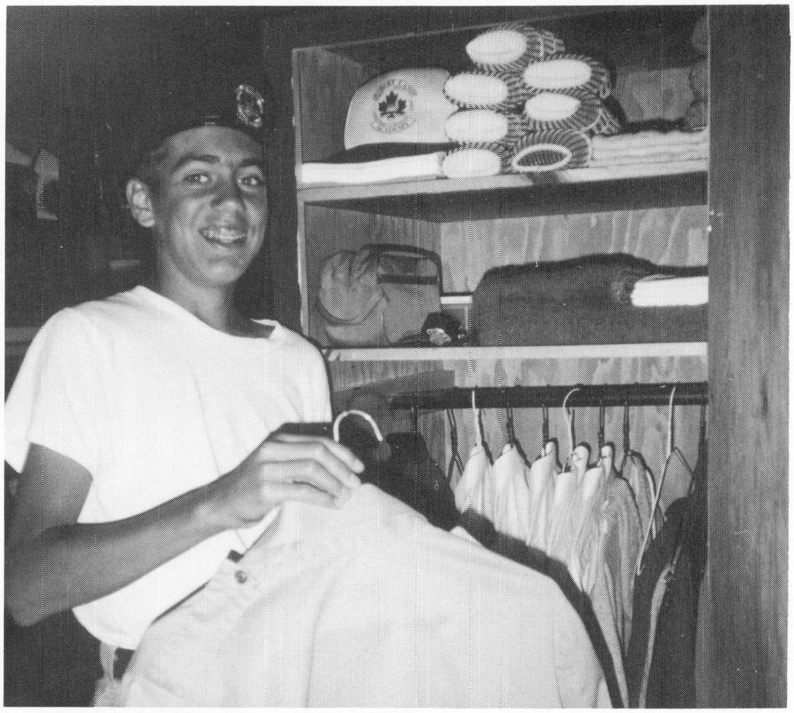


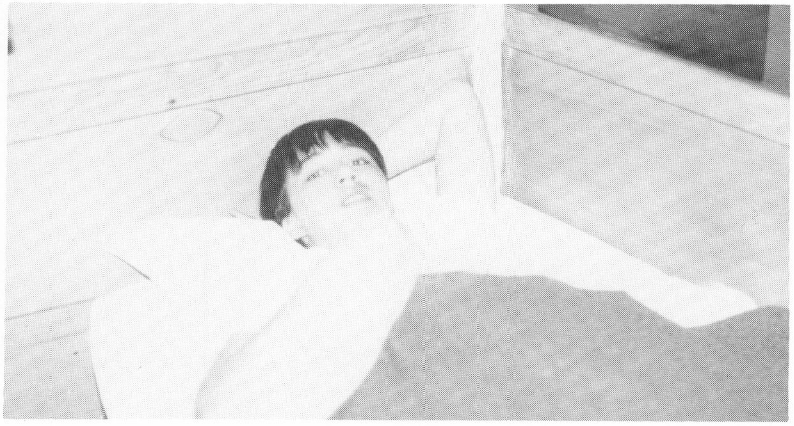




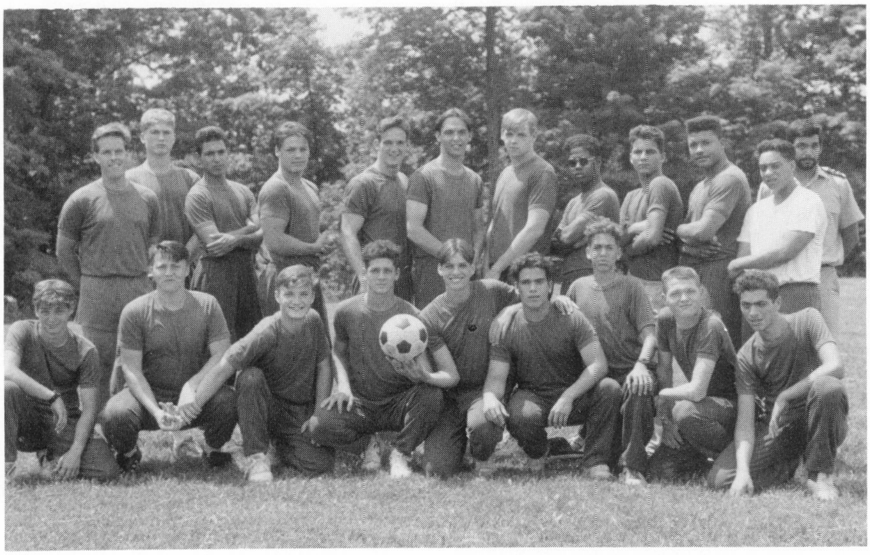








SOCCER



FRONT ROW: (L TO R): Lofchik, Sampieri, Power, Arevian, Halliday, Longo, Fidalgo, Boot, Mazzawi

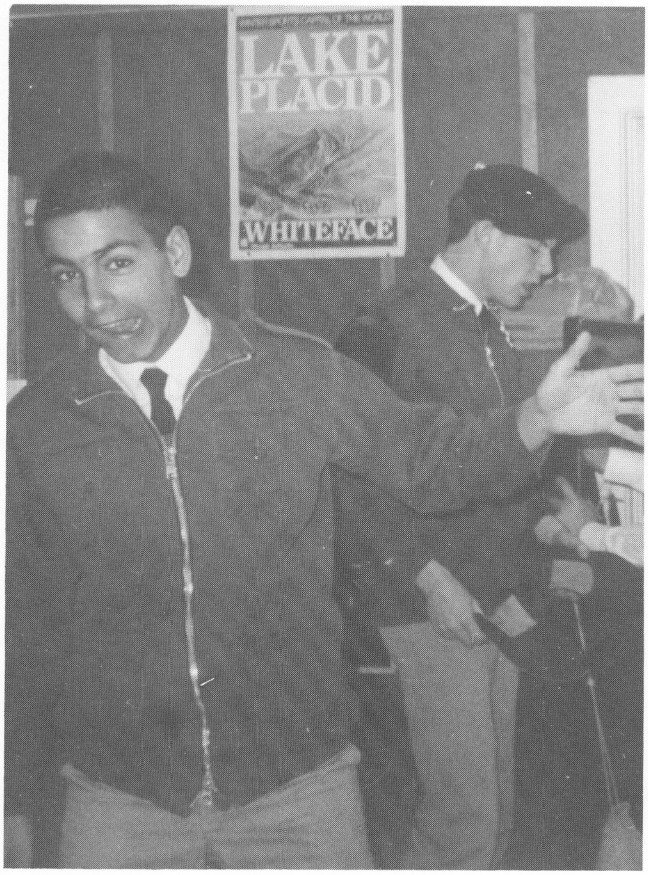
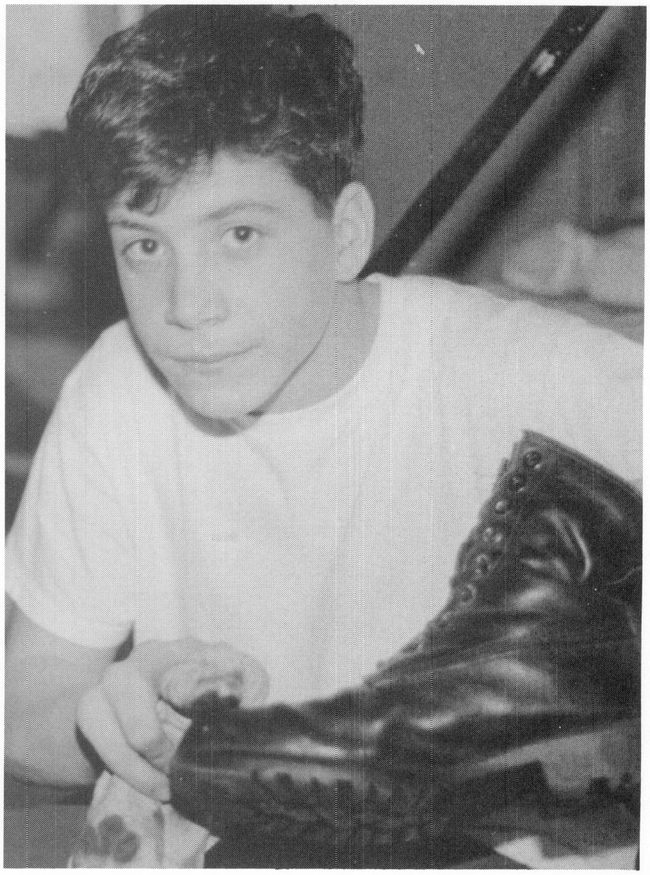
RECRUIT TRAINING

TUESDAY SEPTEMBER 4, 1991. This was perhaps the longest day of our lives, for it was the day we started Recruit Training. Recruit Training is a very interesting way to start your first year at Robert Land. Although it's only a four-day course, it seems to last eternity.

There are two basic elements involved in Robert Land Recruit Training Course; exercise and yelling. Sound like fun yet? You see as a Recruit at R.L.A., you do a lot of exercise, and . . . well you get yelled at a lot. No, it's not as bad as it sounds, it just takes a little getting used to. As a matter of fact, I think it's safe to say that it was an experience that I, as well as any other Cadet who has ever passed through Robert Land, will never, ever forget.



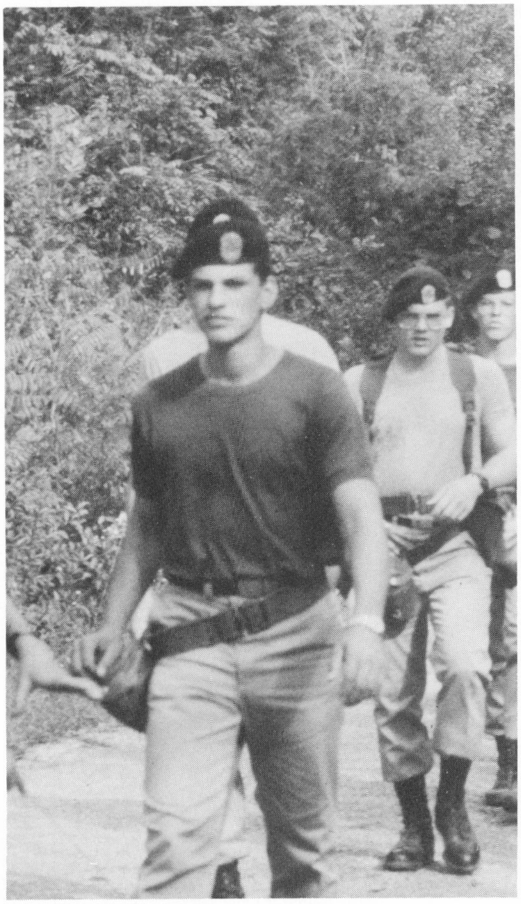


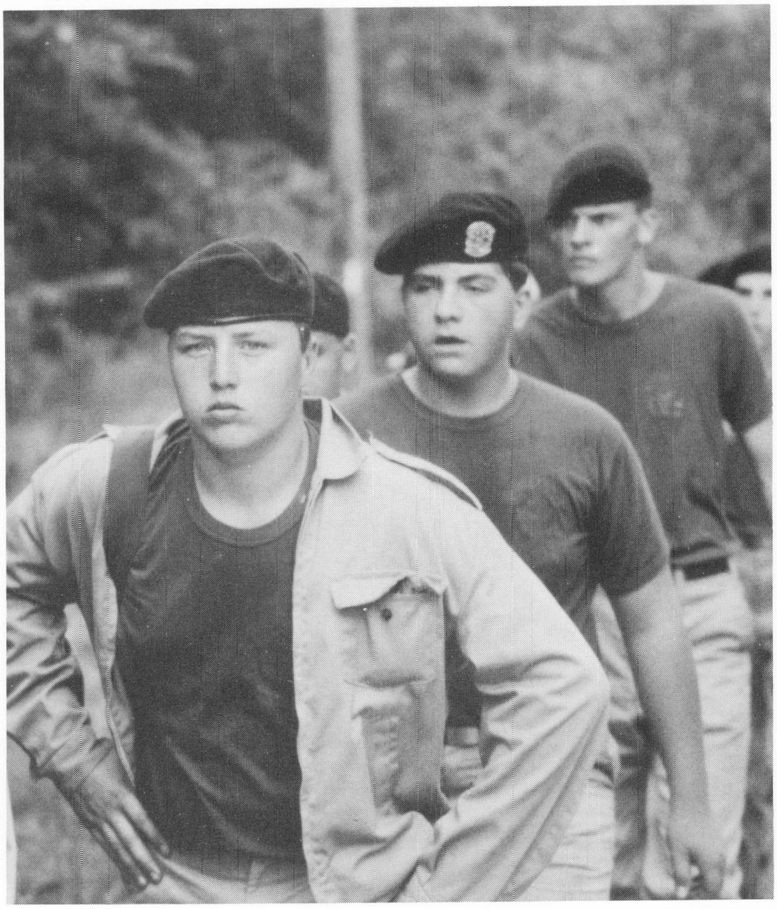
FALL EXERCISE

Each year at Robert Land, there is a 75 mile "walk" known as the famous "Fall Ex". This three day exercise tests our physical and mental limits by teaching us to observe an obstacle and overcome it.

The march begins at the Brock Monument at Queenston Heights and follows the Bruce Trail back to the Academy. Crossing many fields, hills and forests, we are shown parts of nature that many of us have never seen before.

Three days, seventy-five miles, and few blisters later, we all walk through the front gates in good spirits, with a feeling of pride and accomplishment.



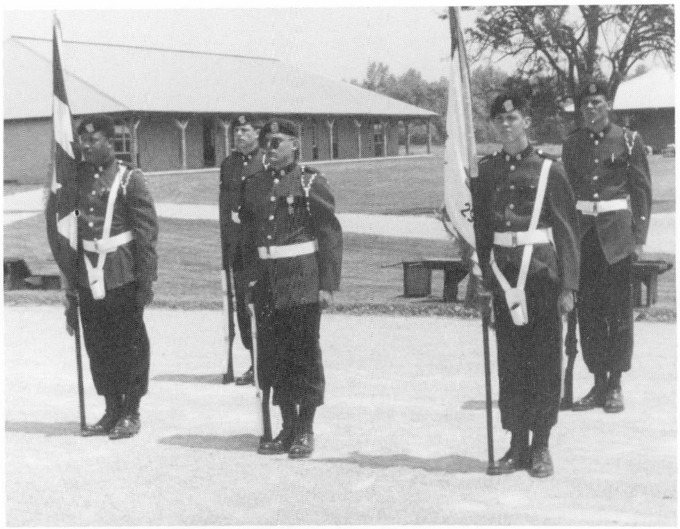


MAY INSPECTION

In the ten months that we spend here at Robert Land, there is perhaps one day that can be classified as the most important day of the year - The Cadet Annual Inspection, otherwise known as the May Inspection.

The Annual Inspection allows us to show the Inspecting Officer, as well as our parents, friends, and the general public just what Robert Land is all about. With displays and presentations of every kind, we are given a chance to show just what can be accomplished with a little hard work.

Being a Cadet Corps, we are judged against many of the other Cadet Corps throughout the Niagara Region. This year, as well as in years past, we have always come out on top, earning first place honours in almost every category. A feat only achievable through months of hard work and dedication. Congratulations to all on a job well-done!



NORTHERN CHALLENGE

Better known by some as "Operation Black Fly", this four day camping trip was a first for Robert Land.

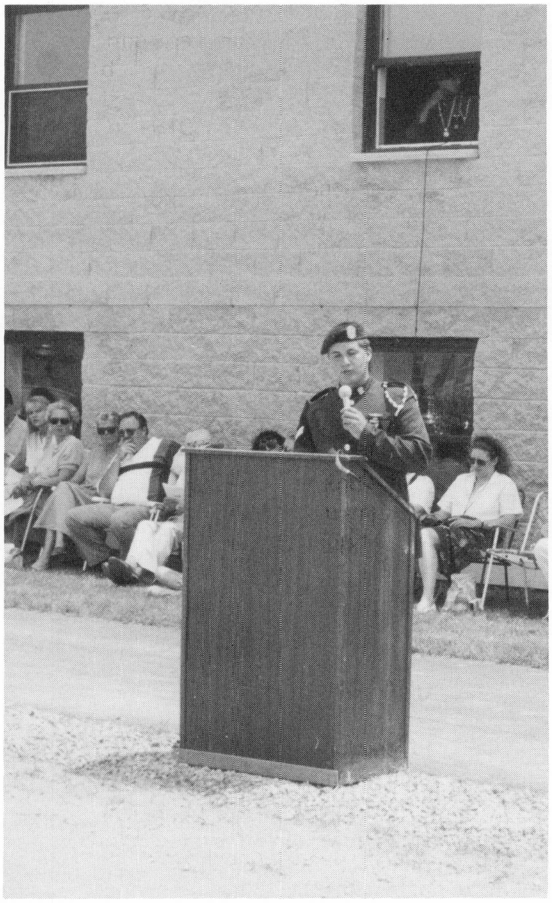
It started off as a dream, back in September, and day by day, staff meeting after staff meeting, it slowly became a reality. After months of careful planning, Exercise Northern Challenge was a go. So, on Monday May 13, we all piled into two busses and headed northbound for our four-day adventure. And what an adventure it was. After a five-hour bus ride, we arrived in Muskoka, only to be greeted by the entire population of black flies and mosquitoes. We pitched camp, which included twenty new tents, a portable Mess Hall, and a kitchen with a refrigerator and kitchen sink to boot.

The next three days were spent indulging in several different activities which included canoeing, a nature walk, survival studies, a swamp study, a rope traverse, and a trip into Port Carling, the closest town. Oh, and we mustn't forget everyone's favourite activity - swimming in Captain Hayter's lake, trying to dodge the icebergs!!

GRADUATION PARADE

SATURDAY JUNE 15, 1991 - A day that no-one from Robert Land will ever forget. A day that had been looked forward to since the early days of September, and through the cold miserable winter. And even when we were at home on leave, no-one would ever forget what the 15th meant - GRADUATION DAY.

A day for celebration, a day for self-pride. A day to look back on just what the last ten months have been all about. The good times, the bad times, the successes, the failures. All of these things summed up in five short words - Honour, Loyalty, Labour, Courage and Commitment.



STAFF VS. STUDENT

Every once in a while, it happens. Be it on the soccer field, the baseball diamond, the ice-rink, or even at opposite ends of a sixty foot rope, it happens. East meets West, the students versus the staff; two teams, one victor.

Y. ONYSCHUK & CO. LIMITED

INSURANCE PROFESSIONALS

SINCE 1948

At ONYSCHUK, we are proud of the quality service our family of clients receive. In addition to assuring that they carry their insurance with stable insurance companies at competitive prices and good claims service, we also offer:

1. Informative bi-annual Newsletters
2. review of policies at renewal
3. convenient payment plans
4. discounts for new home, mature citizens and smoke detectors. We owe our success to our "satisfied" clients.

At Onyschuk, We Care!

THREE MEN AND A STRUGGLE . . .

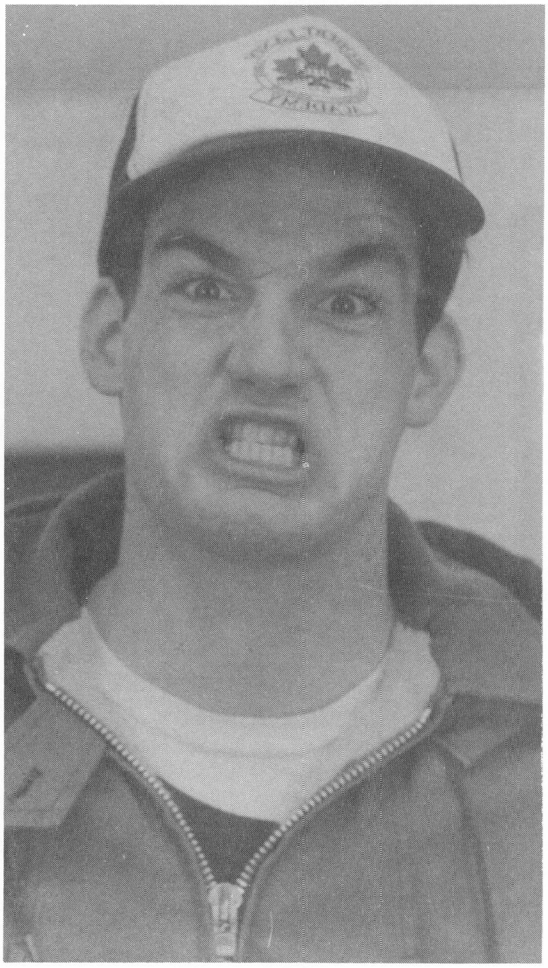
3 MEN & A STRUGGLE - EDITOR'S ADDRESS

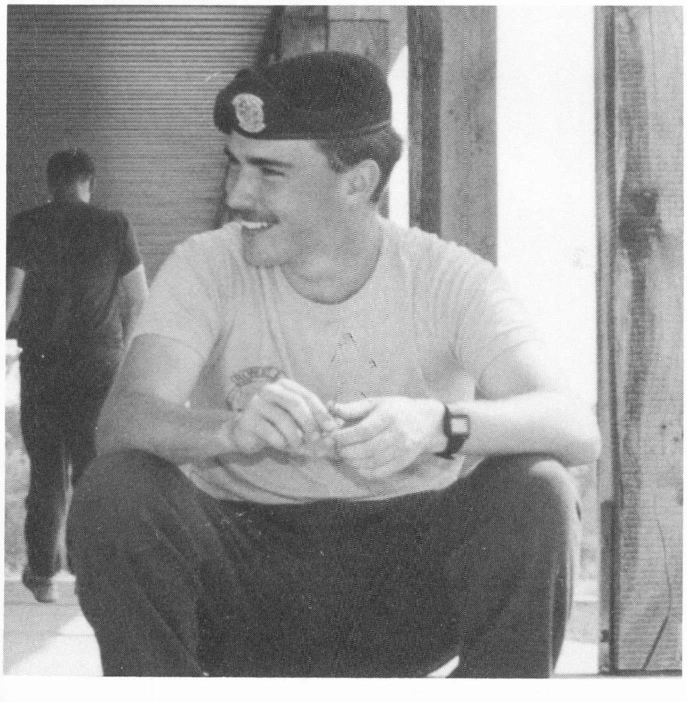
As the title says, it was most definitely a struggle. It seems to me that we pulled this whole book together in a matter of two weeks!

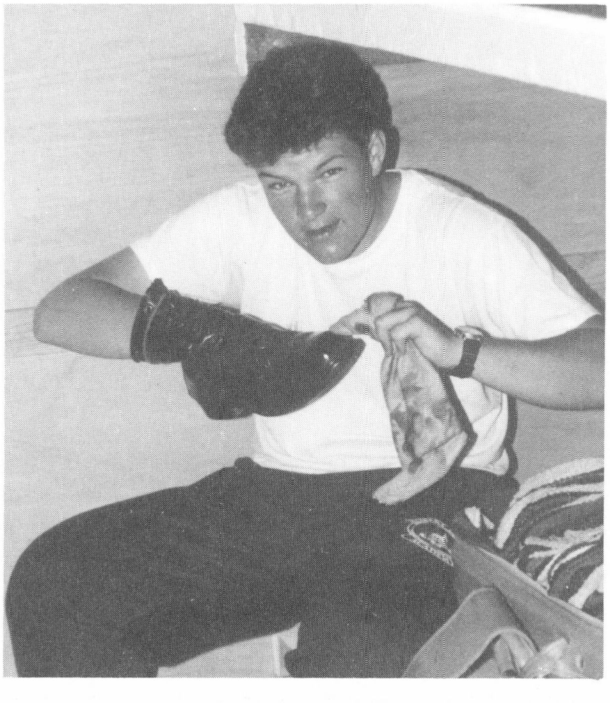
Oh well, it's done now, and it's something I can look back at and be proud of. But there is no way I could have pulled this one off without Scott and Adrian. Without you both, there would be no yearbook. I would also like to thank Ron Tarter, James Easton, James Paterson (let's bail), Matt Donovan, Mike Halliday, Andy Tank, John Ewing, and any others that assisted in the production of the yearbook. One special thanks to Mark "Chico" Longo for making me keep in there when the times were rough, and preventing me from letting the yearbook pack a rather large lunch, so to speak. Thanks to everyone.

This year has finally come to an end, and as the title of the yearbook goes: New Colours and Attitudes. We may say there may be an air of relief that we are getting out of here, but I think we've all learned something about ourselves, our parents, and what we can expect of ourselves in the future. And, in using that knowledge that helped us to succeed here, we can use it on the outside world and I hope this book will reflect a year of challenge; that none of us will ever forget.

Corporal Dave Lilly



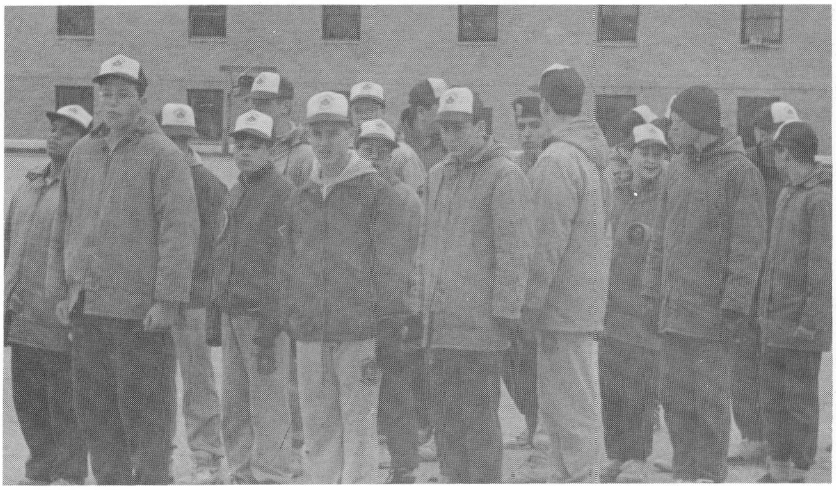




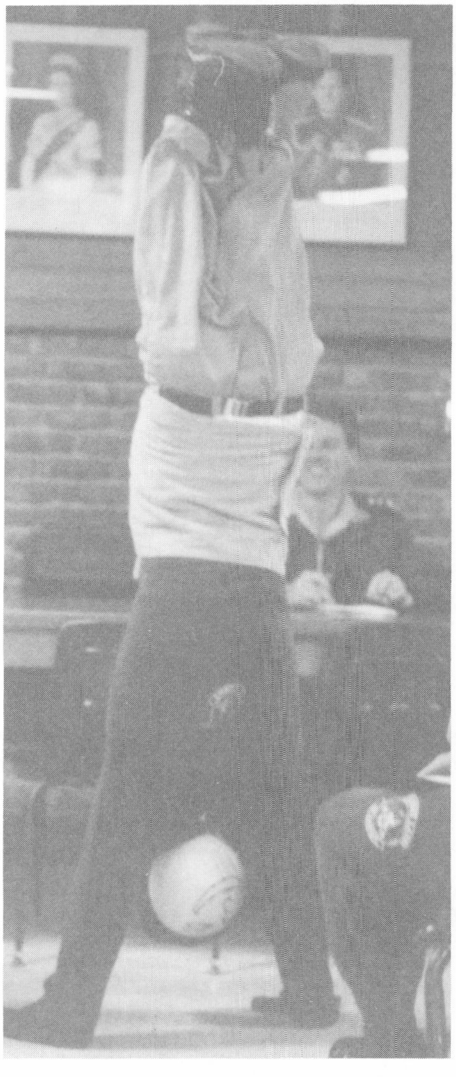
AND FINALLY . . .

ABOVE: ASM Anderson exemplifies the values of the Academy. He will be greatly missed! Best wishes from us all.

BELOW: Things that make you go hmmm?!



ABOVE: Hooray! Another stop sign run.



ABOVE: Headmaster, Major and Farmer???

BELOW: Another example of fine (but not so stable) RLA Cadets.
